

Position: Graduate Developer

Salary: 22k-25k

See what we've been playing with: Jump onto the App or Play stores, download one of our AR Apps, hold your phone over the graphic below.

We're looking for a talented Graduate Developer to join our mobile application development team.

As a developer you'll be responsible for the development and execution of mobile and tablet applications for our awesome client base.

You'll be given the opportunity to work with and learn iOS & Android application development for some of the biggest brands in the world. You'll join our team working within the fun and relaxed environment of our Shropshire-based headquarters.

From prototyping to launch, you'll have ownership of each step in the development process and will be working alongside one of the top development teams in the country. You'll also be given complete freedom to adapt and use emerging technologies in your role.

Not essential but if you could provide some basic examples of work you've done we'd really appreciate it.

If you love software development as much as we do, and want to work with the latest technologies in the industry - email us here:

iwanttowork@bronzelabs.co.uk

Bronze Software Labs Ltd does not make use of recruitment agencies and would recommend applicants apply directly.
