Industrial Year Developers

GloverSure Ltd. is looking for 4 industrial year developers for 2014/15, we have had many industrial years from Aber over the years and many have come back after graduating and are still with us today.

GloverSure Ltd. was founded in 2004 by a Aberystwyth graduate in software engineering. We are a successful multi award winning business operating in web application development and Mobile App based in Welshpool, Mid Wales, just 20 minutes from Shrewsbury, and 70 mins from Aberystwyth. All our development team have been to Aber Uni and we are rapidly growing agile company. We are a team of 12 and have over 500 clients from the likes of the NHS, First Buses and Trains, Welsh Rugby Union, many county councils and government agencies to local businesses and sole traders.

Desirable skills include:
 • Good knowledge of using object orientated languages.
 • Good understanding and use of PHP (but not essential, training is provided)
 • Experience of Java, Javascript, AJAX, CSS and XHTML would be useful.
 • The ability to prioritise and work on several projects at a time
 • Self motivated, but also when needed a team player.
 • Interest in developing mobile apps

The job entails developing cutting-edge web based technologies and writing performance critical software. You will be responsible for developing and extending GloverSure's software portfolio, working in partnership with other members of the development team to produce tailored solutions to satisfy customers.

Quite often students misunderstand what their job would entail at GloverSure, you will be developing large web applications and not designing simple brochure websites as we have web designers who do this work.

Not all of the desired skills are required and training will be given where required, so the ability to develop skills and learn new technologies is essential.

You will be involved with all stages of the development cycle and will gain a great amount of experience and insight from working in a small/medium sized business like ours.

Please submit your CV direct by email to:

jobs@gloversure.co.uk

Mr. R. Glover-Davies, GloverSure Ltd, Severn Business Centre, Severn Farm Enterprise Park, Welshpool, Powys. SY21 7DF

Please submit any examples of work you feel may demonstrate your capabilities from personal websites to any good examples of your coding skills.

Salary depends upon experience and academic performance.
