

MAKE THIS SUMMER WORK FOR YOU

Transform your future and
kickstart your career with a paid
industry traineeship overseas

www.britishcouncil.org/iaeste

What are you doing next summer? Getting a job? Travelling? Doing work experience to enhance your CV?

With a paid industry placement organised by IAESTE (the International Association for the Exchange of Students for Technical Experience), you can do all three. Traineeships are open to students in their second year or above of a science, engineering, technology or applied-arts degree.

An IAESTE international traineeship will give you the chance to:

- gain paid work experience with top employers from six weeks to one year
- learn cutting-edge techniques from research institutes, consulting firms, laboratories and other major players around the world
- get ahead with technical knowledge and contacts that will make your CV stand out
- discover a new culture, boost your confidence and communication skills, and build life-changing friendships.

This was one of the greatest experiences of my life. It has made me a happier, wiser and more experienced person.

Christopher Scott
Civil Engineering,
Cardiff University,
placement in Hungary
