Year in Industry Placement

Located at the foot of the Malvern Hills in Worcestershire, the Intelligence Surveillance and Reconnaissance (ISR) Systems UK Business Unit of United Technologies Aerospace Systems designs, builds and supports operational level Systems and Software for ISR data acquisition, management and exploitation.

We're offering the opportunity to develop your skills in HTML 5, SQL / NoSQL databases, JavaScript, NodeJS, Client Side MVC Frameworks. Our work environment provides a flexible, relaxed yet productive atmosphere with a competitive salary, pension, income protection, flexible benefits

The suitable candidate:

We are seeking an enthusiastic individual who's quick to pick up new skills and keen to develop a system wide knowledge, including infrastructure as well as the code. If you've got experience of working in an Agile (SCRUM) environment and knowledge of web technologies then that's a bonus. If you have a technical and numerate background and love to tinker with technology, we'd love to hear from you.

Personal Qualities:

- High level of communication skills
- Keen to develop a system-wide knowledge
- Ability to work well within a team
- Ability to design, implement and test object orientated software on a Windows or Linux platform
- Ability to analyse requirements and generate tests to ensure the requirements are met.
- Good problem solving and bug tracking skills
- Self-starting and inquisitive – able to get to the root of problems and find innovative solutions
- Quick to learn new technologies
- Customer focussed
- Able to use best of breed open source technologies with skills to understand how they work under the hood to gain maximum benefit from them

UTC Aerospace Systems is a multi-national organisation who can provide exceptional career opportunities to exceptional individuals.

If you feel that you can meet the challenge and are a UK national (we need you to obtain MOD security clearance.) Please apply by submitting your CV with a covering letter to emma.butcher@utas.utc.com

If you would like to informally discuss what a year with us is really like please contact our current placement joeseph.randall@utas.utc.com /01684 899838

Closing date: 30th November 2014
