

# Technology Sandwich Year Placement

Manchester, United Kingdom

Ref: AT-ITPL

Date published: 8-Jan-2015

Closing date: 12-Feb-2015

Salary range: £18,000

We currently have an amazing opportunity to join our Product and Technology division for a 1 year sandwich year placement. During the placement you will experience working with a range of software professionals including User Experience, Java Developers and Automated Testers and build and develop your skills in your chosen software discipline.

We love agile and work in small squads to ensure each squad has a focus and a mission. This way we ensure every squad member counts, has a voice, shares ideas and is involved from the moment they join. We deliver great products to our customers and make sure we remain number 1 on the market.

Our award winning new First Street offices are spacious with pool tables, games consoles, free refreshments and other great facilities. We even have cars in the office, which is no mean feat as we're on the fourth and fifth floor. We can offer you great experience in a collaborative and creative environment.

## The Requirements

- You must be a 2nd year student available to undertake 1 year placement starting in Summer 2015
- Hold a strong interest in software development
- Curious about all thing technical
- A strong communicator who will be confident working in a fast paced and changing environment
