

Placement Digital Designer

What we want

We are looking for an enthusiastic and passionate designer with a key eye for detail and a love of great design to join our creative team. Working alongside our Creative Director and Senior design team, you will be designing a range of digital media from HTML emails to large scale websites for high-profile clients, benefitting from working in an exciting agency environment. You will need to be keen, highly motivated, creative and extremely passionate about all things design.

The successful candidate will have:

- Good knowledge of the Adobe Photoshop and Illustrator
- A good eye for design, typography and use of colour
- Knowledge of web design best practices
- Good communication skills and be able to rationalise design decisions
- Ability to work alone or in teams
- Strong attention to detail

Advantageous skills could include:

- Knowledge of mobile/responsive and interactive design
- Ability to concept a site from inception and carry it through to design
- Basic understanding of HTML5 and CSS3 would be beneficial
- Basic understanding of UX would be beneficial
- Some knowledge of the rest of the Adobe Creative Suite

Interview Process

To ensure we find the ideal candidate, our interview process is made up of 3 steps.

1. Telephone / Skype interview
2. A creative test brief
3. Face to Face interview

This is a fantastic opportunity for a student to kickstart their career and really make their mark in an established and growing agency.

You are able to apply for this position by submitting a covering letter and CV through our website <http://clock.co.uk/>

Placement Overview

We're Clock, an award-winning digital agency based in Kings Langley, and we're seeking placement students to join our vibrant and talented team.

Who are Clock?

Clock is one of the top 100 digital agencies in the UK and boast a prestigious portfolio of clients including News UK (The Times and The Sun), ShortList Media and Wall Street Journal.

Clock are dedicated to looking after their staff and regularly win awards as a result of their flexible working environment, including in 2013 The NCWE Award for Best Placement Programme in the UK. You'll benefit significantly from an innovative and successful approach to getting the most out of your time at work.

What you would gain from your Clock experience?

You will be an integral part of the production team working on large web builds, digital marketing campaigns, mobile sites and other interactive products.

- An insight into all areas of the business.
- Work in a relaxed, fun and buzzing environment.
- Develop your skills: Cutting-edge Technology, Creativity, Best Practices and Methodologies, Innovation, Teamwork and Social Interaction.
- Add high-profile publishing and media clients to your portfolio.
- Competitive placement salary.

Placements love Clock

This year is the 14th anniversary of our placement scheme, with many placements returning after University. At the beginning, the lucky candidate will work closely with the current placements to learn the ropes, and the following year will be expected to do the same thing for the next generation - the passing of the torch.

Working at Clock surpassed my expectations of a work placement, I had a really great time. Everyone is very friendly and open – you feel part of the team. I worked on real projects and feel that I created a significant impact through my work. I learnt and developed a lot more skills during my placement at Clock in comparison to my time at University. I have been offered a job to return after I complete my degree.

Vaishal, Former placement student
