Graduate Software Developer

Location, Barnsley, South Yorkshire, UK

Our Software Developers are at the heart of our new product development initiatives. We are looking for talented graduates to fill a number of entry-level opportunities in our Product teams.

The Role

Successful candidates will be responsible for the analysis, design, development and documentation of the Egress product portfolio. Working in close collaboration with QA and Project Management colleagues you will be working to deliver against priorities established by the Product Steering Committee and Board of Directors.

The day to day content of the role varies enormously, but you are likely to:

- Develop and maintain baseline knowledge of some elements of the Egress product portfolio from both an End-User and Engineering point of view
- Author technical design documentation for discrete modules of code
- Implement modular changes to existing code executing programming tasks defined by more senior colleagues
- Debug own code with minimal support from others
- Document how to test a feature or module they have written
- Participate in and contributes to regular team scrums / standups
- Participate in code reviews on a weekly basis, seeking and absorbing guidance from more senior colleagues

The Person

You will possess a depth technical skillset with a track record of developing elegant software solutions, either in a commercial or academic environment.

Experience in specific technologies and languages is far less important than good coding aptitude and well developed problem solving skills.

The successful candidate will have:

- have a passion for technology in general, and software development specifically
- have delivered a consistently strong academic performance from GCSE right through to degree level
- be graduating from university in Summer 2016, or are a recent graduate looking for your first permanent role or first job change
- You are likely to have chosen a numerate or technical degree subject (for example Mathematics, Physics, or variants of Computing such as Software Engineering).

The company

Egress is proud of our uniquely agile, effervescent, and people focussed environment.   Our core values of Culture, Excellence, Ambition and Integrity run through everyone who works for us, and everything we do.

We are a sociable company, working hard and playing hard in equal measure. The atmosphere in our offices is friendly and supportive, with a competitive edge! We enjoy regular nights out and there are plenty of social activities including company funded team lunches and monthly activities. Employees also enjoy free breakfasts and fruit, and top end coffee.

Egress have two office locations in the UK. This position is be based in the Yorkshire market town of Barnsley.

If you are interested in this role, please send your CV to careers@egress.com**.**
