

# Atebol Interactive

## Assistant Web Developer

### Company Description:

Atebol is a publishing company situated on the outskirts of Aberystwyth. Historically the company has worked and continues to work with the Welsh Government in producing high quality bi-lingual educational resources for children and young adults. The company has since expanded into building web applications, iPhone and Android apps. The company is expanding and we are currently looking to take on a student for Industrial year placement starting in September 2016.

### Job Description:

The successful candidate will be working closely with the lead developer and assisting with the current active projects. The type of work will vary between projects, a good candidate will have good management skills and be able to prioritise their workload and work efficiently to meet deadlines. Due to the work being so varied the candidate must show a wiliness to learn on the job and the ability to research and solve problems on their own. Potential work includes:

- Front-end HTML and CSS
- Using PHP to creating back-end functionality such as login systems
- Editing and customising well-known CMS systems such as Joomla and OpenCart
- DOM manipulation with JavaScript
- Android Games and Apps
- Editing and creating JavaScript Games and plugins

### Experience:

We are looking for a student that is passionate about the work and has a willingness to learn. The candidate must have experience with HTML, CSS, JavaScript and PHP. Experience with Frameworks such as AngularJS, NodeJS, Joomla and OpenCart is an advantage but not essential. We would like the candidate to have a good eye for detail and a positive working ethic. Must have good organisation skills and work well under pressure. Must be working towards a Computer science related degree. A Welsh speaker is desirable but not essential.

### Covering Letter:

In the covering letter we would like you to give us an example of a piece of work that you have produced or worked on that has significance to you. You will need to write a few paragraphs explaining your involvement in the project and the various problems and pitfalls you faced. Please can you provide links to your work and any additional work you feel is necessary for your application.

Applications are to be addressed to Byron Morley and sent to [Byron@Atebol.com](mailto:Byron@Atebol.com). Please enclose a copy of your CV along with your covering letter.
