

Position Title: 3D Graphics Content Creator
Position No: 2017-18/AU02

About us:

Amadeus provides the technology which keeps the travel sector moving – from initial search to making a booking, from pricing to ticketing, from managing reservations to managing check-in and departure processes.

Amadeus Germany is located in the town of Bad Homburg connected to the Frankfurt public transportation system. Of the 550 employees located at this office, around 150 are in the Research & Development department.

About the position:

This is a new role, aimed at supporting the innovation funnel. The role will be creating 3D content for use on various AR/MR/VR devices such as the Oculus Rift, HTC Vive and Microsoft HoloLens. You would be working alongside an innovation developer (also an available placement) when creating content for their projects. This is a self-learning position, with little technical mentoring support from our side, as we currently do not have expertise in this area. Where available and necessary, you will be provided with access to online trainings.

About you:

You must already have some experience in creating 3D content. Advantageous would be experience with Unity 3D or a similar engine, plus Visual Studio. It would also be useful to have some understanding of Windows 10 app development and UWP. Since this is a self-learning position, you must be confident in working alone and solving your own problems.

You must be on a degree scheme that requires a compulsory industrial year.

Your application:

As part of your application, please include your CV and a cover letter as PDF, quoting the position number. You should address your application to Kristian Schuhmacher. Email your completed application to iy-at-fra@de.amadeus.com with the subject "Application 2017-18/AUxx" (where xx is the last two numbers in the position number). ***NOTE*** You must also submit examples of 3D content or games you have created, preferably as JPEG or link to a video.

Have questions?
