Position Title: Web Development in Angular 2 with TypeScript
Position No: 2017-18/AU08

About us:

Amadeus provides the technology which keeps the travel sector moving – from initial search to making a booking, from pricing to ticketing, from managing reservations to managing check-in and departure processes.

Amadeus Germany is located in the town of Bad Homburg connected to the Frankfurt public transportation system. Of the 550 employees located at this office, around 150 are in the Research & Development department.

About the position:

Be part of a SCRUM team and help developing Angular 2 frontend application for the Project Leisure One

The main activities will include:

- Build frontend application in Angular 2 with TypeScript
- Develop automated unit and functional tests
- Work with outside data sources and API's
- Support the agile development process

About you:

Necessary skills:

_ Good knowledge of JavaScript
_ Experience with Angular or Angular 2

An advantage would be to have some experience with Node.js and the e2e test framework Protractor.

You must be on a degree scheme that requires a compulsory industrial year.

Your application:

As part of your application, please include your CV and a cover letter as PDF, quoting the position number. You should address your application to Kristian Schuhmacher. Email your completed application to iy-at-fra@de.amadeus.com with the subject "Application 2017-18/AU**xx**" (where xx is the last two numbers in the position number).

Have questions?
