

# Undergraduate Year in Industry placements

**Diamond Light Source, the UK's synchrotron light source based in South Oxfordshire, is recruiting undergraduates for exciting projects starting summer 2018**

Projects are available to undergraduates in a wide range of disciplines, from structural biology to scientific computing and physics, and offer the chance to working one of the country's largest and most exciting scientific institutions. The 12 month placements are paid and typically start during the summer of the penultimate year.

Applications close

**Friday 10<sup>th</sup> of November 2017  
at 5pm (GMT)**
