

Position Title: Java Developer
Position No: 2018-19/AU06

About us:

Amadeus provides the technology which keeps the travel sector moving – from initial search to making a booking, from pricing to ticketing, from managing reservations to managing check-in and departure processes.

Amadeus Germany is located in the town of Bad Homburg connected to the Frankfurt public transportation system. Of the 550 employees located at this office, around 150 are in the Research & Development department.

About the position:

This role is based within the Developer Experience (DXP) Team in Bad Homburg, Germany. The tasks of this team include supporting developers around the world, maintaining development servers and environments, along with administering several tools and web portals. This is carried out in collaboration with the other DXP teams located around the world.

This role comprises of two major tasks:

- The first includes developing new and maintaining existing plugins for the Eclipse IDE, working with the Eclipse Open Source community and providing internal support to 3000 Eclipse users.
- The second is developing and maintaining an interconnector application, which enables data transfer and synchronisation between multiple applications.

About you:

Required: Java, Eclipse user

Desirable: Python, Puppet, Linux (Debian-like)

You must be on a degree scheme that requires a compulsory industrial year.

Your application:

As part of your application, please include your CV and a cover letter as PDF, quoting the position number. You should address your application to Kristian Schuhmacher. Email your completed application to iy-at-fra@de.amadeus.com with the subject "Application 2018-19/AUxx" (where xx is the last two numbers in the position number).
