Placement Student for summer 2018 - summer 2019

Background

A work placement is being offered to a **computer science student** (or related computing courses) within the company New NP GmbH (sister company of AREVA GmbH), Germany, for the duration of one year. The start date would preferably be end of June 2018, however this is flexible.

New NP GmbH is a world leader in the field of nuclear power plant construction and servicing. The placement is within the engineering and project management division of New NP GmbH.

The placement with New NP GmbH is based in Erlangen, a university town approximately 20 km north of Nuremberg.

The placement student will be involved in projects concerning high-level mark-up and scripting languages.

Requirements

The following is required from the student:

1. Studying a Computer Science degree course (other related computing courses will be considered, e.g. Information Technology).
2. Good knowledge of web-based technologies (scripting, mark-up languages).
3. Knowledge of at least one high-level programming language (C, C#, Java, etc.).
4. Knowledge of databases (SQL, Oracle, MySQL, etc.) an advantage.
5. Good written and spoken English.

Please email your CV and a cover letter (German or English) by the **9th February 2018** at the **latest** to:

Malgorzata.Leszczynska@aveva.com and
Andrew.Stockman@aveva.com

NB: Candidates will be considered upon receipt of application, so early application is recommended.
