WHO ARE WE?

Portaltech Reply are looking for students who are interested in a 12 month industrial placement starting the summer of 2019, to help us build digital worlds from front-end development to back-end integration, across platforms and languages.

Portaltech Reply specialises in the implementation of the SAP Commerce ecommerce platform, multichannel consulting services, system integration, service management and hybris hosting. We have delivered over 30 ecommerce projects for market leading B2C and B2B brands and retailers including: TUI, Iceland Foods, Costco Wholesale, O2, Vodafone, Royal Mail, Phones4U, H3G and Monsoon & Accessorize. We have also been conducting digital transformation programmes for major travel providers like EasyJet and Emirates Airlines.

WHO ARE WE LOOKING FOR?

We are looking for a strong minded individual with a passion for technology, looking to achieve a 2:1 in their second year. Our priority is teamwork, innovation and uncompromising quality. Your contribution matters to us – especially when it comes to working together on an interdisciplinary level. We believe in the importance of personal involvement and in personal relationships.

WHAT WILL BE YOUR RESPONSIBILITIES?

○ Assisting with the definition of client business and IT strategies covering a number of current topics such across the Multichannel and eCommerce domain.
○ Analysing clients business operating models and help identify areas of improvement
○ Analysing and document business processes linking back to the business operating model
○ Business requirements investigation and definition for projects, and translating these into functional designs and detailed strategic roadmaps.
○ Document workflows and results of business analysis and obtain sign-off from client on the specifications.

WHAT SKILLS DO WE REQUIRE?

○ Excellent interpersonal and communication skills
○ Strong analytical, reporting and presentational skills
○ Independent, with the capacity of assume responsibilities without being asked
○ Intellectual curiosity (thought leader / product developer)
○ Optional: Knowledge of Workflow / Process / Web / Agile / IT / Requirements Gathering / UML

WHAT'S THE OFFER?

○ £18000 per annum + laptop
○ Growth opportunities - certifications, courses, innovation camps
○ Social events - Hackathons, lab camps, webinars, bootcamps
○ Potential graduate position within company

Preferable start date: June/July 2019
