

Applications Engineer Placement at Bühler UK

Bühler UK offers a number of opportunities for Industry Engineering Placement roles in our world class Research & Development department. We're looking for engineers and managers of the future to join the Research and Development department of Bühler UK. You'll be working with 80 professional engineers to design the next generation of optical sorting machines.

Job Description

In this role you will be fully integrated into a team of mechanical, software and electronic engineers, working in a multi-disciplinary R&D department. You'll develop a wide range of engineering and business skills, and gain an understanding of the fundamentals of sorting machinery.

You will be working within a team of engineers to evaluate new products being released by the R&D department. Tasks include: planning and executing functional and non-functional software tests, validation of mechanical and electronic hardware, system and acceptance testing of machinery, and designing and building test equipment.

Skills Required

You'll be studying for a degree (or equivalent qualification) in an engineering discipline.

You'll be methodical, practical and inquisitive, with a scientific approach to problem solving. An interest in systems design would be advantageous. Strong soft skills are required, as effective communication within the team is vital.

To Apply

Email your CV and a covering letter outlining why you've chosen this placement to hrukrecruitment@buhlersortex.com with "Applications Student Placement" in the subject line.

The deadline for applications is **Friday 22nd November 2019**

Role is based in London

Start date for placement is **Monday 6th July 2020**
