# Electronics Student Placements (Summer 2021 – Summer 2022)

Instrumentation and Control Labview Tool Development 3 Positions Availa

### **Job Offer**

Framatome GmbH is offering a one year work placement/internship to **Electronics or Computer Science students (or those doing other related courses e.g. Information Technology)** for the year 2021 – 2022. The starting date will be in the summer of 2021, but a more exact date is to be discussed in a telephone interview.

#### **About Framatome**

Framatome GmbH is a world leader in the field of nuclear power plant construction and servicing. The placement is within the Instrumentation and Control division of Framatome GmbH. The placement with Framatome GmbH is based in Erlangen, a university town approximately 20 km north of Nuremberg.

### **General Requirements**

- Studying Electronics, Computer Science or another related course (e.g. Information Technology).
- Good written and spoken English.

## Job Specific Requirements

#### Labview Tool Development

- Good knowledge of Labview and optionally C/C++/Qt framework.
- Knowledge of scripting languages (Bash, Python, etc.) is an advantage.
- Knowledge of Linux is an advantage.

## **Further Information**

The successful applicant will work closely with one of our project managers, aiding in current projects. The working language is English; however, it is expected that the applicant will engage in learning German during their internship.

This is a **paid internship** (approx. €1100 per month).

Please email your CV (English or German) and a cover letter by 31<sup>st</sup> January 2021 at the **latest** to Eliot Roberts at:

eliot.roberts@framatome.com

For any related queries, please also contact Eliot Roberts at the above email address.

In your cover letter, please **clearly state** which role you are primarily applying to. If this role has already been filled, you will still be considered for other positions; opportunities to develop your own strengths and interests will be available in all roles.

N.B. Candidates will be considered upon receipt of application, so early application is advised.
