

DISCOVER YOURSELF AT INFINEUM

Industrial Placement Data Science Students

Milton Hill, Oxfordshire | £19,500 per annum

Infineum is a world-class formulator, manufacturer and marketer of petroleum additives. For more than 80 years we have been innovators of products used in automotive, heavy-duty diesel and marine engine oils, in gasoline and diesel fuels, and specialty applications including transmission fluids and industrial oils. Infineum additives are inside 1 in 3 of all vehicles worldwide.

This 12-month student placement offers a Data Science Undergraduate the opportunity to work collaboratively with both Technologists and the Data Science team at our state-of-the-art facility in Oxfordshire. Working closely with project teams analysing sensor data to drive sustainability through advancements in fuel economy, this placement will enable you to apply and build on knowledge learnt at University in a commercial environment and make a genuine contribution towards research at Infineum. With a focus on advancing your skills as an independent Data Scientist, it's a chance to develop your own expertise as well as innovative data driven solutions, as part of a truly world-class team.

Placements begin in July 2021

Send your CV, with a covering letter and naming a supporting academic referee to: UKRecruitment@infineum.com

Closing date: 12 March 2021
